

Dr Barry L. Duncan  
presents :-  
**What makes a  
Super-  
Therapist?**

Some therapists achieve significantly better outcomes than their peers, even using the same model. Barry Duncan and his associates have spent decades researching therapeutic change—what works in therapy--and importantly, what makes one therapist better than another. Through research and a degree of detective work they have established which factors contribute to superior performance in therapy – and it is not what you might first think.

In this rapid-fire workshop, Barry describes three things you can do immediately to join the ranks of 'Super-Therapists.' Barry will also introduce the Partners for Change Outcome Management System (PCOMS), a designated evidence based practice that improves outcomes via identifying clients who are not responding, allowing alternative intervention paths before dropout or a negative outcome. PCOMS has been successfully implemented in the USA , Canada, the UK, and in 20 countries around the world.

**Barry L. Duncan**, Psy.D. is a therapist, trainer, and researcher with over 17,000 hours of clinical experience. He is the author of over 100 publications including 17 books, the latest of which is "On Becoming a Better Therapist (APA, 2014). He is CEO of Better Outcomes Now ([betteroutcomesnow.com](http://betteroutcomesnow.com)), and the developer of the clinical process of the Partners for Change Outcome Management System, a designated evidence based practice.

The workshop is suitable for all those who are engaged in therapeutic interactions with clients. It will contribute 1.5 hours Continuing Professional Development

22<sup>nd</sup> Oct 2020 1500 – 1630
