

# The Supervisory Relationship: Difficulties and Delights.

Presented by Robin Shohet

(co-author of **Supervision in the Helping Professions**)

In a world dominated by an audit culture and where relationships are becoming increasingly transactional, the supervisory relationship is of vital importance. Through good role modelling, it upholds the value of relationship as a vehicle for transformation. How does the supervisor avoid becoming part of a culture that is increasingly moving towards avoidance of risk and defensive practice? In this webinar we will use Appreciative Inquiry as our starting point and take courage as our theme - the courage to take risks, be honest and vulnerable and own what might seem like mistakes, but in fact are potentially vehicles for growth. *Past delegates have commented: "A excellent experiential learning." "I came to hear and observe a gifted clinician - this aim was achieved". "Sent me away excited, energised, and enthusiastic".*
